

TEXAS SPACE INDUSTRY VALUE CHAIN

TEXAS 2023

LAND HERE. GO BEYOND.

With an ecosystem of over 300 space-related organizations, home of NASA Johnson Space Center, Joint Base San Antonio, Army Futures Command in Austin, four federally regulated spaceports, including SpaceX and Blue Origin's private spaceports, and one of the largest concentrations of consulate corps and Fortune 500 companies in the United States.

Texas is the 9th largest economy in the world with one of the strongest job markets and lowest costs of living, making it home for budding entrepreneurs and major enterprises; and boasting the most diverse community in the country.

The fully integrated Texas space ecosystem and the State of Texas' globally recognized business-friendly climate are concentrated in:

- Fastest Growing Microprocessor and IT Talent Community
- Largest Number of Certified Cyber Professionals Outside of Washington, DC
- Global Leadership in Defense Industry Manufacturing
- Energy Capital of the World
- Largest Medical and Biotech Complex in the World
- Home to Human Spaceflight and Private Launch Facilities.

And for inspiration, look up. The stars at night are big and bright, deep in the heart of Texas.

Join us! You will be in great company, and we would love to have you here - when we land together in Texas, the State of Space is ours.

Comprehensive company list is available upon request.
